

SWIM SPAS

BAHAMA SPAS

RELAXED AND HAPPY

Swim • Row • Relax • 365 Days-a-year

The swim spa line was created to improve the quality of life for you and your family. Use it to swim, stretch, row, relax and enjoy. It's your own personal gym and pool in one!

Bahama Spas believes exercise and fun can be combined into the same area. Four specialized swim spas that are built to last a lifetime and are an excellent way to get in shape! This line includes a Lucite® shell, exercise equipment for resistance training and super water purification system which ensures clean water every time you workout or swim.

The swim spa line includes a swim lane for guidance in the water. The included rowing kit gets you started with resistance bands and bars so you can start your training circuit right away! It will become your personal underwater gym. Add in the resistance provided by water which is twice as effective while being much gentler on joints for that low impact regiment.

Swim spas can be installed above or below ground and do not require the permits required for regular swimming pools. They are also more energy efficient and backed by an outstanding warranty. So, whether it's swimming against powerful jets, rowing, soaking or just relaxing, there is a Bahama swim spa for your size and budget.
