- Mood Enhancement
- Muscle Relaxation
- Increased Flexibility
- Reduced Inflammation
- Improved Blood Circulation
- Cellulite Reduction
- Stronger Immune Response
- Alleviated Symptoms of Depression

STEALTH SAUNA FEATURES

Chromotherapy

We take wellness to a new level with integrated chromotherapy lighting. The LED lighting system sets the mood and amplifies your experience. Chromotherapy has been shown to influence well-being, reduce stress, improve focus, and promote relaxation. Your sauna becomes more than just a place to sweat; it's a sanctuary for holistic well-being.

Canadian Hemlock Wood

Quality matters, that's why we use Canadian Hemlock Wood in our saunas. Known for its durability, beauty, and resistance to decay, Canadian Hemlock ensures that your sauna stays fresh, free of bacteria and molds, and lasts for years to come.

Carbon Infrared Heaters

Our SIR models come with carbon infrared heaters designed for peak performance and safety. These heaters provide a wide surface area for more even heat distribution, ensuring a more comfortable and effective sauna session. The carbon panels create the ideal infrared wavelength, penetrating deep into your tissues for an unparalleled detoxifying experience.

User-Friendly Controls

Stealth Saunas feature inside and outside control panels that are easy to navigate. This dual-control system allows you to adjust settings before stepping into the sauna and fine-tune your experience without breaking your relaxation once inside.

Air Purification: Ionizer Deluxe

To ensure the air you breathe during your sauna session is as pure as possible, we've included an advanced Ionizer Deluxe air purification system. This system helps to remove impurities and toxins from the air, making every breath you take fresher and cleaner.

EXPERIENCE THE NEXT
GENERATION OF WELLNESS
